

It always seems *impossibly* until it is done.

I have already meet with many of the Rate Payers Associations (RA) to discuss their vision and hopes for their suburbs for 2017. We are

looking at the outstanding issues, challenges and new projects. This will be an ongoing task but one i know we can achieve together.

Property Rates Policy

The City of Joburg is inviting all residents and interested parties to give input into the review of the City Property Rates Policy. This is an annual process that ensures that resident's voices are heard. I have requested for an additional venue for the Fourways Area.
City of Johannesburg - Public notices

Clay Oven Informal Settlement

There is a huge concern for the residents living here.

Region A has added more bins & toilets.

With the heavy rain the threat that the river banks collapsing is also at the top of our list. EMS has investigated. We are looking for a solution to house the residents of this area in a safer environment. Meeting will continue this year with Provincial roads, Housing and Safety.

[Edition 1, Volume 1]

Grass Cutting

We are working closely with City Parks in Region A to get a weekly schedule for maintenance of our parks as well as a schedule for the grass to be cut on the verges. The rain has been wonderful and we can all see that by how long the grass is. I have made this a priority as the ward is not looking very neat at the moment.

From Cllr Sifumba (MMC), "The reason behind the grass cutting backlog was due to budget constraints and inter-departmental matters that we are looking into. The grass cutting budget was outlined in the Budget Steering Committee meeting

Executive Mayor has been extremely busy exposing corruption in our city. Here are some of the other successes

1. The City is supplying chronic medication to 13 old age homes, retirement villages and elderly day care centers. This is to stop our elderly community from waiting in queues.
2. Advertising Trailers continue to be rife in the City. JMPD are looking to procure flatbed trucks equipped with cranes to remove any offending advertising trailers and the offenders fined.
3. The City took delivery of 11 new ambulances in the 2015/2016 financial year and an order for 15 more has been placed for the 2016/2017 financial year.

This information has been supplied by the City of Joburg MMC'S

ILLEGAL DUMPERS BEWARE!

WhatsApp or SMS 082 779-1361

" I URGE residents to take clear photos showing culprit, the vehicle with registration number and the waste dumped and send the photo with the date, time and location",
Cllr Michael Sun MMC

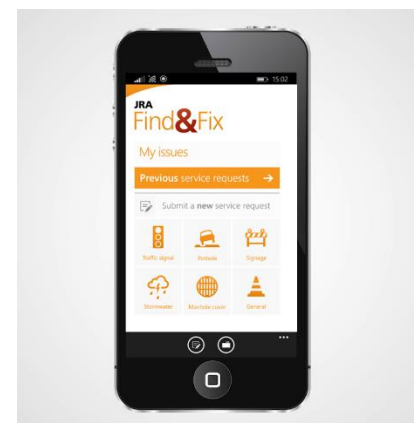

Ward Committee Elections

Residents were asked to submit their applications to Region A to be candidates for the election process. Thank you to the residents who have decided to give back.

JRA Find & Fix Mobile App:

This user-friendly app helps residents report road related issues. The index page has easy to understand images for the category your issue would fall under. The app records the GPS location and image. Please ensure that you give as much information as possible when reporting. Instantly you will receive a reference number.

World Wetlands Day:
2 Feb 2017

Act of Random
Kindness: 17 Feb 2017

Walk your Dog Day:
22 Feb 2017

Pick n Pay Chili Lane have come on board and offered lunches for those that will be helping clean the river frontage. We are hoping for the community and council to join forces.

We will be visiting a children cancer ward and donating knitted bunnies.

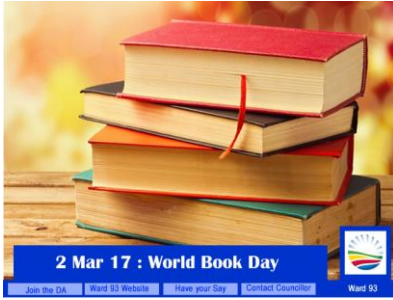

We have contacted the Guide Dog Association to see if we can assist them in anyway on the 22 Feb 2017

Rehabilitation of Braamfontein Spruit

by Cllr Makhuba

“JRA is in the process of finalising a study to identify sources contributing to flooding and erosion along the rivers banks. When the study is completed, actions which the City can take to restore the habitat will be recommended and further safety measures for residents and properties will be introduced. The Braamfontein spruit is the longest river running through the City and is the most important waterway in Joburg”.

World Book Day: 2 Mar 17

We are looking for any books looking for a new home. On the 2nd of March we will be donating these books to needy book worms

Earth Hour: 19 Mar 17

**“Use your power to
change climate control”**

Turn all your lights off from 830pm to 930pm local time to join the other 173 countries that are taking place.
